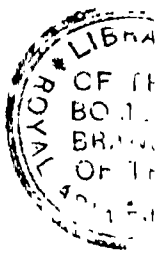
OFFICE OF THE SURGEON-GENERAL
WITH THE GOVERNMENT OF BOMBAY :

Poona, 1st May 1934.

From

LIEUT.-COL. K. G. GHARPUREY, I.M.S.,
Officiating Surgeon-General with the
Government of Bombay,
Poona ;



To

THE SECRETARY TO GOVERNMENT,
General Department,
Bombay.

Subject—Annual Report on Mental Hospitals in the Bombay Presidency for the year 1933.

Sir,

I have the honour to submit the Annual Report on Mental Hospitals in the Bombay Presidency for the year 1933.

2. *Buildings.*—The buildings are in a good state of repair. The additions, alterations and repairs to the old civil and female yards and servants' quarters at Hyderabad were completed during this year. Owing to financial stringency, no new major works were carried out during the year.

3. *Water-supply.*—The water supply has been good and fairly sufficient.

STATEMENT NO. I.—*Population.*

4. The total population of the Mental Hospitals during the year under review was 2,895 as compared with 2,824 in 1932. Admissions including readmissions numbered 657 males and 221 females during the year against 641 males and 241 females respectively in 1932. It is gratifying to note that the readmissions this year numbered only 25 (20 males and 5 females) as compared with 84 (50 males and 34 females). The daily average strength was 2,045·5 as compared with 2,004·2 in the previous year.

Discharges and Cures.

5. During the year under report 383 patients were discharged cured, 123 improved, 86 not improved and 53 were discharged otherwise.

Sickness and Mortality.

6. The daily average number of sick treated in hospitals was 114·3 against 85·5 in 1932. The percentage of sickness to the daily average strength was 5·5 against 4·2 in 1932. The health of the patients was generally good during the year.

7. There were 216 deaths against 186 in 1932. The ratio of deaths per cent. of the daily average strength was 10·5 as compared with 9·3 in the preceding year. The sub-joined table gives the ratio of deaths to the daily average strength at the several Mental Hospitals :—

Mental Hospitals.		Males.	Females.	Total.
Naupada, Thana		29·6	20·7	26·7
Ratnagiri		7·4	4·8	6·8
Central Mental Hospital, Yeravda	E. ..	2·0	3·5	2·5
	I. ..	6·3	4·8	5·7
Dharwar		9·3	9·0	9·2
Ahmedabad		4·5	4·1	4·4
Hyderabad		9·6	18·4	10·8
Total ..		11·3	8·9	10·5

8. The chief cause of deaths at the various Mental Hospitals during the year were Dysentery (28), Malaria (24), Digestive system (22), Nervous diseases (16), Tuberculosis (15), Pneumonia (14) and Diarrhœa (13).

STATEMENT No. I-A.

9. During the year, 409 cases were admitted to the various Mental Hospitals for observation. Of these 313 were certified and admitted into Mental Hospitals and 85 released as uncertifiable.

STATEMENT No. II.—*Criminal Insanes.*

10. The total number of criminal insanes confined in the Mental Hospitals during the year 1933, was 176 (167 males and 9 females) with a daily average strength of 117·4.

STATEMENT No. III.—*Religion.*

11. Of the 878 cases admitted for treatment during the year, 23 were Europeans and Eurasians, 71 Indian Christians, 574 Hindus, 178 Mahomedans and 32 belonged to other castes.

STATEMENT No. IV.—*Previous Occupations of the Insanes Admitted.*

12. Domestic and private servants 85 including housewives furnished the largest number of admissions followed by students (40), merchants (32), farmers (28), coolies (28), clerks (25), beggars (24), mill-hands (22), labourers (18), teachers (15) and 234 other known occupations. In 111 cases, the previous occupation could not be ascertained and 216 had no occupation.

STATEMENT No. V.—*Ages of Insanes admitted.*

13. 82 insanes were under 20 years of age on admission, 595 between 20 and 40, 190 between 40 and 60 and 11 were upwards of 60 years.

STATEMENT No. VI.—*Types of Insanity.*

14. The principal types of insanity treated were Mania 898 against 799 in 1932, Melancholia 551 against 589, Dementia Præcox 324 against 306, Insanity due to Cannabis Indica or its preparations or derivatives 121 against 139, Delusional Insanity 126 against 115, Idiocy 49 against 50 and Imbecility 155 against 151.

STATEMENT No. VII.—*Ætiological factors and associated conditions in the Insanes admitted.*

15. The principal predisposing and exciting causes were Mental stress 129 against 111 in 1932 and Mental instability 93 against 140. Owing to defective history the causes of insanity could not be ascertained in 101 cases as compared with 92 in the previous year.

STATEMENT No. VIII.—*Cash Accounts.*

16. The receipts from paying patients this year amounted to Rs. 1,78,213 against Rs. 1,67,988 in 1932. The value of stores received from the manufacturing departments less cost of the raw materials was Rs. 22,964 against Rs. 21,373 in 1932. The total receipts under the two heads amounted to Rs. 2,01,177 compared with Rs. 1,89,361 in the previous year.

17. The total expenditure amounted to Rs. 7,43,426 as compared with 7,05,064 in 1932. Deducting the receipts the net expenditure was Rs. 3,31,928 against 3,18,010.

18. The following table shows the cost per annum per head of the daily average strength in the several institutions during the past two years :—

Institutions.	1932.	1933.
	Rs.	Rs.
Naupada, Thana	227	212
Ratnagiri	208	213
Central Mental Hospital, Yeravda	352	376
Dharwar	165	154
Ahmedabad	225	217
Hyderabad	167	194

Employment and Amusements.

19. The employment of patients on such work as gardening, weaving, bidi-making, tailoring, sewing, carpentry, canework etc. and helping in the domestic duties connected with the Mental Hospitals continues the same as in previous years. Rs. 2,883 were expended during the year for the amusements and recreation of the insanes against Rs. 2,714 in 1932.

Visitors.

20. The official visitors at all the Mental Hospitals were regular in their attendance.

Accommodation.

21. All the Mental Hospitals have been grossly overcrowded. With a view to set free some additional accommodation, Government have abrogated the reciprocal arrangements with other provinces.

22. A summarised report of the Central Mental Hospital, Yeravda, is published as an appendix.

I have the honour to be,

Sir,

Your most obedient servant,

(Signed) K. G. GHARPUREY,

Lt.-Col., I.M.S.,

Officiating Surgeon-General with the Government of Bombay.

APPENDIX.

Annual Report of the Central Hospital for Mental Diseases, Yeravda, for the year 1933.

The permanent Superintendent Major E. C. A. Smith, I.M.S., proceeded on leave ex-India on 13th June 1933, and was relieved by Capt. A. Tait, I.M.S. Unfortunately Capt. Tait was unable to continue on account of sickness, and on 22nd July 1933 had to be relieved by the Deputy Superintendent Lieut. G. W. Dudley, I.M.D., who was in turn relieved by Mr. F. G. D'Souza, B.M.S., Class I, on 11th August 1933. I relieved Mr. D'Souza on 25th September 1933 and continued to officiate for the remainder of the year.

The year opened with 880 patients as compared with 812 the previous year. During the year there were 202 male, and 86 female admissions, a total of 288, as against a total of 379 (males 263, females 116) the previous year. Of the 288 admissions only 8 constituted readmissions—2·7 per cent. of the total—a very gratifying figure as compared with the previous year—when readmissions constituted 14·2 per cent. of the total admissions.

Bed Accommodation.—The number of beds provided in this hospital is 860 and are distributed as follows :—

	Male.	Female.	Total.
Europeans	137	85	222
Indian Section No. 1	68	141	209
Indian Section No. 2	197	62	259
Acute Section	34	11	45
Infirmary	78	47	125
	514	346	860

During the year under review the daily average number of patients was 870·9.

Voluntary Boarders.—These patients are admitted under Section IV of the Indian Lunacy Act, 1912, and 17 were so admitted during the year. Of these 10 were discharged recovered, 4 as improved, and at the close of the year 3 remained.

Criminal Insanes.—At the beginning of the year the number of criminal insanes resident in the hospital was 25 (males 23, females 2). Of these 9 recovered (2 were returned to Jail, 2 transferred to Civil Side, 3 sent to stand trial and 2 discharged to the care of relatives). During the year there were 26 admissions and one death bringing the total resident at the close of the year to 41 (males 37, females 4).

Military Insanes.—There were five admissions during the year. One was discharged recovered, 2 were transferred to the United Kingdom

under arrangements made by the Military Authorities, and at the close of the year 2 remained.

The percentages of cases discharged as "recovered" and "improved" to the daily average strength (870·9) were 12·8 and 7·1 respectively.

The mean rate of recoveries to direct admissions (288) was 38·8 per cent., while the rate of those discharged as "improved" was 21·5 per cent. In view of all the circumstances prevalent in this hospital, these figures are remarkably high, and I doubt if they have been exceeded in any mental hospital either in India or the United Kingdom. There were 55 patients discharged as "not improved". Only under exceptional circumstances are patients in this category discharged. The relatives must either execute a bond, or give an undertaking in writing that the patients will be properly cared for at home.

The length of residence of patients in the hospital who were discharged as "recovered" varied from 15 days to 10 years, while that of patients discharged as "improved" varied from 21 days to 13 years. The respective numbers of patients discharged as "recovered" and "improved" under three months' residence were 33 and 19, while under six months' residence the numbers were 30 and 12 a rate of 32·6 of the total admissions. This ratio is very satisfactory, as experience shows that where more than six months' residence in a mental hospital is considered necessary, the psychosis usually turns out to be of a serious or chronic nature.

Deaths.—The deaths in the hospital numbered 45 and the following table shows the causes of death :—

Colitis	3
Dysentery (Protozoal)	5
Syphilis	1
Tuberculosis general	1
Toxæmia Ascariasis	1
G. P. I.	2
Hæmorrhage Cerebral	2
Paralysis (Hemiplegia)	1
Status Epilepticus	3
Angina Pectoris	1
Valvular Disease of Heart	4
Lymphadenoma	1
Chronic Bronchitis	2
Pneumonia	7
Tuberculosis of lungs	5
Acute Pancreatitis	1
Inanition	2
Puerperal Septicæmia	1
Strangulation	1
Old age	1
	45

Health of patients (physical).—The general health of the patients has been very good, and apart from 102 cases of Influenza there were no other diseases of an epidemic character. In view of the incidence of Plague in the Presidency all patients and staff were inoculated against Plague. No case of plague occurred in the hospital.

Dental Treatment.—Part time services of a dentist are very necessary.

Treatment of Mental Disorders.—The medical staff remains the same as when the hospital was opened but the number of patients has been trebled. It will therefore be readily understood that the facilities for treatment cannot be considered ideal. The Superintendents of this hospital have for years been pointing out the gross inadequacy of the staff. I am in complete agreement with them. In the meantime with what staff there is, every effort is made to administer appropriate treatment and care to all patients.

Occupational Therapy.—A large number of patients are engaged in carpentry, cane-work, spinning, weaving, bidee-making, while on the average 60 male patients are daily employed in the vegetable gardens. During the year vegetable produce to the value of Rs. 8,191 was utilised from the gardens. The matron conducts sewing classes and the patients undertake all the repairs to hospital linen etc.

Sports and Amusement.—During the year the cricket team played 95 matches at home, and journeyed once to Lonavla. Thirty foot-ball matches and 45 hockey matches were played at home. During the year the K. O. S. B. concert party kindly gave two entertainments, and a Parsee Party also gave two concerts.

Towards the end of the year some 250 patients attended three picnics. To Father Lauder, Mr. Patel, Mr. Madon, and my wife I am greatly indebted both for their presence at these picnics, and also for their financial and material assistance, which enabled me to organise these picnics.

Some 200 patients attend the weekly Entertainment and Dance. These functions take place every Tuesday from 6–8 p.m. Owing to the generosity of some well-wishers it has been possible to engage a band once a month for the dance when an extension till 9 p.m. is granted. On other evenings we dance to the gramophone.

During the year two new Badminton Courts and one tennis court have been laid out on the female section. This work has been carried out entirely by the staff and patients, and although we do not claim that they are first class courts, the patients thoroughly enjoy playing, and benefit both mentally and physically.

A total amount of Rs. 1,597-12-5 was expended during the year on account of the amusements to patients from the discretionary Allowance to Superintendent. This includes the purchase of sports equipment, viz. cricket balls, bats, hand-gloves, leg pads, tennis rackets, tennis presses, tennis balls, tennis ratchette, net adjuster, foot-balls, hockey balls etc.

I have only the highest commendation to offer the whole staff for the efficient and conscientious manner in which they have carried out their onerous duties, and I have personally found the work of superintending both interesting and enjoyable.

The monthly Visiting Committee have rendered valuable assistance, and I wish to record my thanks to the members of the Committee, especially to Mrs. Inglis and Khan Bahadur M. N. Mehta, C.I.E., for the keenness they have displayed in the welfare of the patients, and also for the helpful advice they have on various occasions given me.

I cannot close this Report without bringing to your notice the valuable services rendered to this Institution by Mr. A. C. Patel of Kirkee. He regularly attends the patients' weekly entertainment and dance, and his abilities as a vocalist have been greatly appreciated by patients and staff alike. He has also made arrangements whereby many of the patients have been enabled to attend the Cinemas in Poona, and as I have already pointed out he has given both financial and material assistance for the patients' picnics.

To my wife and many of her lady friends, I am grateful for their attendance at the dances and picnics, and also for their interest in the female patients, and the trouble they took in organising several tea parties in the hospital. I have not the slightest doubt that the encouragement given by these ladies to many of the patients was in no small measure responsible for many of early recoveries mentioned above.

(Signed) M. TAYLOR,
Capt., I.M.S.,
Officiating Superintendent, Central Hospital
for Mental Diseases, Yeravda.
